

NO CITY ACTION ON LIGHT RATE CUTS

Schedule Proposed by People's Power Company to Become Effective First of Year.

NINETY-CENT GAS TO CONSUMER

Council Will Seek Concession in Price For Electricity at Waterworks.

The Rock Island city council will not formally accept the proposed rates for gas and electricity that the People's Power company submitted a week ago, Mayor McConochie announced today. The mayor said such action was needless and would only be a formality.

The mayor stated that the council had asked the power company for a reduction for the consumer and that the company had made a reduction, to take effect Jan. 1. He said that the proposition therefore demanded no further consideration of the commission.

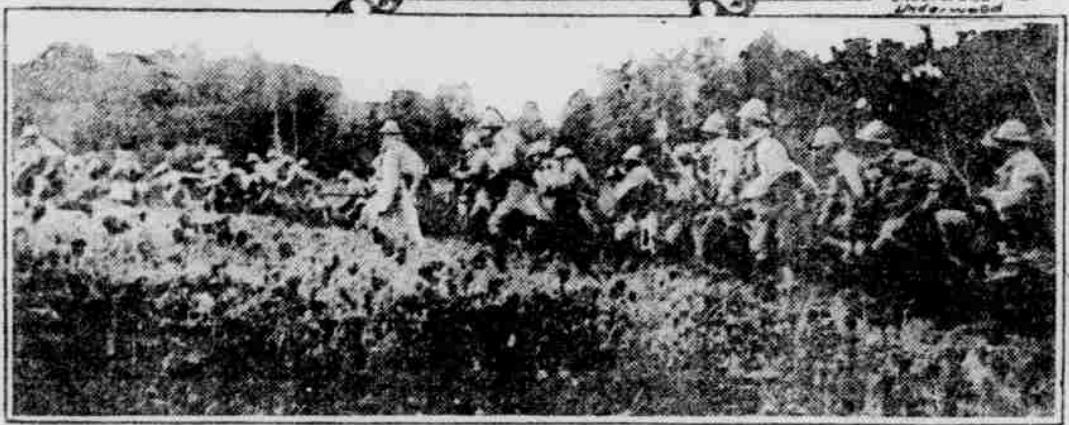

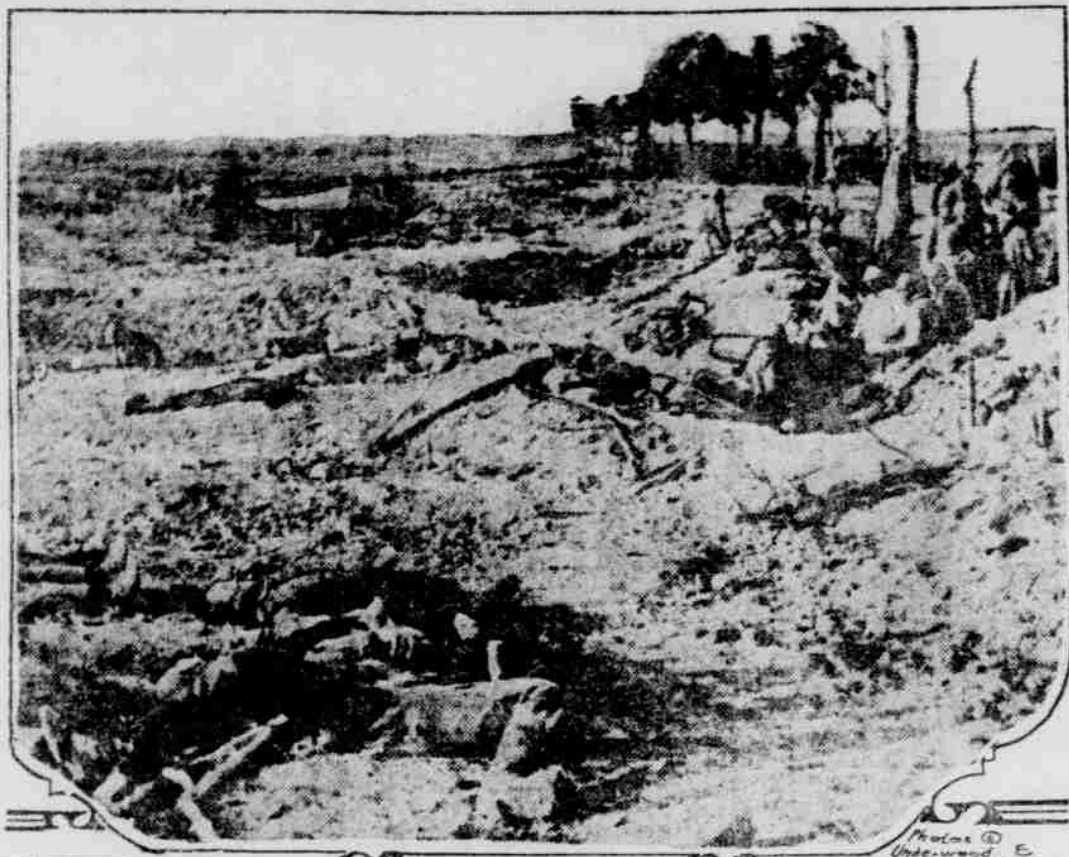

Mayor McConochie also said that the commission had had hopes of securing a lower rate and that the proposed schedule in the opinion of the councilmen was not low enough. In Moline reduced rates, identical to the same as proposed here, were formally accepted by the council.

The change which affects the largest number of consumers is that which reduces gas from \$1 to 90 cents, and electricity from 12 cents to 10 cents. Other reductions are made in both according to the amount used.

Lower Rate for Waterworks.

Mayor McConochie said that the city is endeavoring to secure a lower rate for power used at the waterworks. He declared that a proposition is under way whereby the water is to be pumped from the waterworks to the reservoir between 11 o'clock at night and 8 o'clock the next morning. During this time consumption of the electric power is lighter and a lower rate could probably be secured if the pumping was done at that time than at present during the day, when consumption is heavy.

BACK TO STAGE AFTER 15 YEARS

Julia Arthur.

New York, Nov. 19.—Theatre goes who can recall the days of a decade and a half ago when Julia Arthur, now Mrs. Benjamin P. Cheney, Jr., of Boston, was one of the brightest and most capable stars, will be more than pleased at the information that after her retirement of 15 years she is again to be seen on the boards where she made such a decided success years ago.

Since her retirement from the stage she has been living quietly as the wife of a Boston millionaire who has made his fortune in the manufacture of silk. Time and again she had flattering offers to return for a brief spell to the stage, but always has she turned down the tempting offers until there came from Cleveland a newspaper man with the script of a new play. Mr. Cheney, her husband, after hearing the script of the "Eternal Magdalene" read, appreciated the possibilities for displaying the histrionic abilities of his wife, and although reluctant to give the consent which meant the return of his wife to the stage, he finally did so, in order that the younger generation of theatregoers might enjoy the privilege as seeing Julia Arthur as did their parents, years ago.

ORDINANCE POPULAR WITH JIBBUS OWNERS

There are at present time 25 jitney busses operating in and out of Moline under license. Only one was, officially a jitbus, the others being listed as taxicabs, having taken out licenses under that ordinance. They were all doing jitbus business and not taxicab business, however.

In all 30 taxicab licenses have been issued by City Clerk C. V. Johnson. With the exception of the four issued to Fred Young of the Plow City garage and one other, all those issued were to jitney bus operators, who chose to come under the taxi ordinance rather than the jit ordinance. One license has been issued under the jit ordinance.
